Raji – I am developing a list of agenda items and hope to send that to you today or tomorrow. In the interim, I wanted to also add that we will have our eco risk assessor on the call, Ms. Margaret Roy. She did not attend any of the scoping meeting previously but was in the background helping develop the PCSMs for eco and the eco risk language in the scope of work and RI/FS Work Plans. She has worked on numerous Superfund sites and is very familiar with Larry Champagne.

I will be in touch soon.

Thanks

Matt
